*A natural make-up brand  
for sensitive or allergic skins*

The first natural make-up brand for sensitive or allergic skin was born from the combination of the best of nature with the know-how of Natorigin research.

*The best of nature  
on behalf of sensitive skin and eyes.*

A natural range with at least 98%\* ingredients of natural origin, which has eliminated sensitising and allergenic components and is formulated to be kind to both the environment and even the most sensitive skin and eyes.

\* according to ISO 16128

# Our commitments

## Natural formulas

The Natorigin range is formulated with at least 98% ingredients of natural origin\* according to standard ISO 16128.

## Optimal efficacy

Natorigin research combines nature and science to offer make-up and skincare products that deliver optimal results with excellent make-up properties, intense shades and long-lasting hold. The products are worked to offer results equivalent to conventional products with formulas more mindful of your well-being, health and the environment.

## Organic as a priority

For the natural ingredients in the products' composition, their organic version is prioritised with a minimum content of 20% organically farmed ingredients in the products (10% for products in powder form).

## Perfect tolerance

Natorigin products have been designed to ensure safety of use by women with sensitive, intolerant or allergic skin and eyes, in accordance with the criteria stipulated by dermatologists and allergy specialists (allergenic preservatives removed, plant proteins removed, essential oils prohibited and silicones removed, etc.).

Natural or organic active ingredients are chosen for their action, purity, origin and safety.

## Comfort of use

Natorigin research draws from the best of nature to offer high-quality, effective and extremely well-tolerated products.

Sensory products with ingredients chosen for increased comfort of use and a feeling of pleasure.

## THE PREMIUM ACTIVES OF THE BRAND

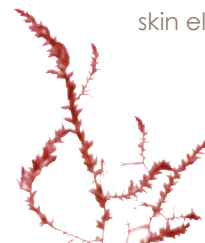

## Organic Red algae cellular extract

(Asparagopsis Armata)

The ocean is an inestimable source of natural elements for the skin's well-being.

The red algae cellular extract was chosen for its extremely rich content of biologically active silicon with skin cell-stimulating, hydrating, softening, draining and purifying properties.

This extract develops and improves skin elasticity, radiance and softness.

## Organic Raspberry seed oil extract

(Rubus Idaeus)

Nature holds treasures for caring for sensitive and delicate skin.

Raspberry seed oil extract was chosen from among them for its skin-protecting, soothing and regenerating, anti-free radical and anti-inflammatory properties thanks to its natural vitamin E and its nourishing and hydrating action due to its high concentration of natural essential fatty acids (omega 3, omega 6, omega 9).

## Compact powder

This powder is ideal for setting make-up, controlling shine on the face and fully restoring your skin's natural glow.

With its ultra-soft and silky finish, it naturally evens out skin tone with a featherweight touch.

Its micronised organic Tapioca powder gives it a cashmere feel and extreme softness, and the organic Sunflower seed oil extract an exceptional comfort to your sensitive skin's great delight.
